Experience

PICPAY (BRAZIL – MAR 2023 - TODAY)
Senior Data Scientist

Monitoring of the company's credit risk ML models and its dependencies. One of the main responsible for planning and implementing the Credit Models Monitoring Project and its respective products and tools.

OUZE (BRAZIL – DEC 2021 - MAR 2023)
Senior Statistical Modeling and Credit Risk Analyst (aug 2022 - mar 2023)

Monitoring of internal and third-party credit risk statistical models. Monitoring and management of the institution's credit portfolio. Elaboration and evaluation of credit policies.

Risk Analyst (dec 2021 - sep 2022)

Monitoring of the institution's financial risks: liquidity, credit, market risks and capital requirements. Consolidation of KRIs and KPIs. Data extraction from relational databases. Preparation of Risk and Compliance Committee presentations.

MEANTRIX (BRAZIL – JUL 2019 - DEC 2021)
Data Scientist

Development of several products based on Machine Learning and AI, from the initial stages of design and prototyping to deployment and maintenance. I had contact with the R language (developing analysis, packages, web apps with Shiny framework, etc.), but also with JavaScript, HTML/CSS, SQL, and technologies such as: Docker, Cloud Services (Azure and Google Cloud Platform), Git/GitHub, and others.

PREVIOUS EXPERIENCES
COURT OF AUDIT (STATE OF SC): Economics Internship (AUG 2018 - FEB 2019)
DAYCOVAL BANK: Currency Exchange Operator (Jun 2015 - Dec 2016)
FIESC - SENAI: Administrative Assistant (Mar 2014 - Dec 2014)

Education

London School of Economics and Political Science (LSE), **MBA Essentials Certificate Course**, 2022;

Federal University of Santa Catarina (UFSC), **Bachelor in Economic Science**, 2015 - 2019;

Lisbon School of Economics & Management (ISEG - ULisboa), **Exchange Program in Economics**, 2017.
